JP Truck Racing Announces Partnership with Thompsons Group

Thompsons Group Support JP Truck Racing for the 2021 Race Season

Today, JP Truck Racing proudly announces its continued partnership with Thompsons Group for the 2021 Truck Racing Season where they will be racing in Division 2 across eight European race circuit locations.

Based in Swanley, Kent, the JP Racing team has a strong heritage in truck racing; the Powell family are firmly established in the truck racing community and well known for their dedication to the sport. Director and driver of JP Racing, John Powell was also elected as the Division 2 committee representative for the BTRA (British Truck Racing Association).

The support that the Thompsons Group partnership provides JP Truck Racing will ensure team has the resources and materials required to maintain the truck throughout its exciting racing season. JP Truck Racing, are also committed to the promotion of the Thompson brand at all circuits, giving their high quality range of vehicles the exposure their brand deserves as the UK's No.1 tipper bodybuilder.

From humble origins in East London over 40 years ago, Thompsons has become a national business with four main point locations in Croydon, Blackburn, Dover and Edinburgh. As an exceptional market leader, in design and in manufacture, Thompsons Group offers customers the widest possible product range. Every model delivers unrivalled performance, reliability and value for money.

John Powell, Director of JP Truck Racing, had this to say about the partnership;

“We are very proud of the long standing relationship between ourselves and Thompsons; their company continues to supply us with a first class and personal service. This partnership will ensure our race season gets off to the best possible start. We'd like to take this opportunity to thank them for their support over the years and look forward to our continued partnership, which enables us to work together with an outstanding team headed up by their CEO Scott Burton.”
